## In-Person Learning Resumes!

Just a reminder that remote learning ended prior to the long weekend, and in-person learning continues Tuesday. Learning remotely, while not ideal, was still very successful for those students who regularly attended and contributed to the class online. For example, grade 8 students have been actively building from home to demonstrate learning of their Mechanical Systems unit in science. Students were tasked with creating a Rube Goldberg Machine (chain reaction, overly complicated way to perform a simple task) that incorporates all of the 6 simple machines. Check out some of [these video submissions](#) of student learning, and a few photos below!

Thank you to all the parents and teachers who supported our students learning remotely until after the May Long weekend! We are so glad to have our students back in person, as we look forward to creating transition connections with JAWS for our out-going Grade 8s, and connecting with our local Grade 3 students to welcome them as they transition into middle school.

**May 25 - Students Return to In-person Learning**

**June 25 - Last Day of School for Students**

**Parent Volunteers Needed!** Our next PAC Meeting RESCHEDULED to Thursday May 27 , 2021 at 6:30pm via [Google Meet](#) !
